

Minutes of the NS Division ES&H Committee

March 4, 2011

Attendees: Lee Aleksich, Brian Fujikawa, Leo Greiner, Spencer Klein, Frank Rosado, Linnea Wahl, Marty White

Building 70, Room 208

- PH using lab for fume hood
- Would NSD like to review project?
- It is an NSD location
- Sending report to committee is sufficient

Safety Culture Survey Results

- Response rate of all LBNL staff = 45%
- Weaknesses across Lab are pretty consistent
- Strengths vary
- Poor = Recognition of safety achievements, Presence of off-the-job safety programs
- LBNL Areas for Improvement
 - Involvement in safety/audits
 - Belief that injuries can be prevented
 - Knowledge of safety performance
 - Quality of safety audits
- NSD Results
 - More “green” areas than Lab as a whole
 - Poor grades are same as LBNL
 - Good area for NSD = Knowledge of safety performance
 - What can we do, as a Division, with this information?
 - Ideas for promoting off-the-job safety
 - Send Level I with link to results/information
 - Idea: Weekly newsletter addressing safety
 - Safety recognition
 - Safety reminders (on and off the job)

Action Item: Info will be relayed at Monday morning meeting and move from there
